tempest-digital.io

Yonkers, NY

SUMMARY

Being a well-rounded generalist ranging from game design to art and web development, cultivated my path into the software industry. I am eager for opportunities to utilize my diverse engineering background to build engaging experiences for video games or any form of interactive media.

EXPERIENCE

Game Design Intern

Astrea Media

05/2021 - 08/2021 New York, NY

Helped design a virtual reality/smartphone app game in Unreal Engine.

- Worked within a team to program mechanics using blueprints, test animations and render cinematics.

Teaching Assistant

NYU Tandon Computer Science Department

05/2021 - 05/2022 Brooklyn, NY

Taught a CS course on Digital Logic and Verilog Design.

- Managed exams, assignments, and hosted lab exercises.

Student Aide

NYU Tandon Career Services

05/2021 - 12/2021 Brooklyn, NY

Provide customer service to undergrads and grads in finding a job or internship for their career path.

- Hosted virtual career fairs and website backend manager.

PROJECTS

Senior Design Project

09/2021 - Ongoing

Designing an open world Sonic fan-game with a variety of quests, exploration, mystery and fast-paced action in Unreal Engine 4.

- Beautifully rendered cinematics in 4K.
- Designed a character physics system using blueprints for a combat system, momentum physics, stunts and tricks.

Portfolio Website

01/2022 - Ongoing

Coded a personal website from scratch using HTML, CSS and JS libraries to showcase my work. Link is at the top of this page.

- Accessible on both browser and mobile

Glitch, IOS Mobile Game

04/2022 - 05/2022

Developed a 2D dungeon crawler in Unity filled with puzzles to solve and a survival mode.

- Fully playable on iPhone with user-friendly and responsive controls.

SKILLS

Unity

Adobe Photoshop

Adobe After Effects

C++

C#

Python

HTML

CSS

JavaScript

jQuery

Unreal Engine

Maya

Adobe Premiere Pro

Adobe Illustrator

STRENGTHS

Leader

Motivating a team of developers to create innovative ideas that revolutionize the industry.

Creativity

From researching on the internet to surfing various videos online, I invent ideas in seconds.

Self-Motivated

Self-taught throughout my college degree and challenged myself without a helping hand.

EDUCATION

Bachelor of Science, Computer Engineer

New York University, Tandon School of Engineering, GPA: 3.3

01/2019 - 05/2022

AWARDS

Dean's List, 2020-2021

NYU Tandon School of Engineering

Salutatorian, Class of 2018

Lincoln High School

Certificate of Recognition for Academic Achievements, 2018

Mayor of Yonkers
